All discharged officers and enlisted men of the United States army and navy are requested to report on Sunday, May 25, at 10 a. m., in front of the city hall for the purpose of attending Memorial services at the Congregational church, in conjunction with members of the G. Mrs. Philip Ellis and daughter, Dorothy, who have been visiting Mrs. Ellis' parents in Concord, N. H., are expected to return to-night in company with Mrs. F. L. McKinney by automobile.

Mrs. McKinney has been passing a 10-day vacation at her former home in Beverly, Mass., and on her way to Barre will be joined by the other two people.

The streets near North Main and Washington streets gave unquestioned evidence of the heavy rains of yesterday. This morning city employees, with the aid of a scraper, much improved conditions. Since these streets are most likely to be covered with oil some time very soon, advantage of the conditions was taken to put them in readiness at this time.

Mrs. John Surrall of Line Mountain, N. Y., is visiting her daughter, Mrs. G. W. Cleveland, in the town of Berlin.

Mrs. Surrall is 105 years of age, according to her son-in-law, and is as bright and smart as a much younger woman. She made the journey from her home in Line Mountain to Berlin Wednesday and did not seem to suffer any ill effects from the trip.

At the annual convention of the Vermont G. A. R. and allied associations in Rutland this week, Elmer E. Perry of Barre was elected secretary-treasurer of the Sons of Veterans, and Mrs. Perry was elected president of the auxiliary to the Sons of Veterans. Mrs. Mable Carr of Barre was elected secretary of the latter organization. Mrs. Emma Lapoint of Barre was elected chairman of the Women's Relief corps.

Arrangements have been made by the Barre Board of Trade and the Granite Quarriers & Manufacturers' association for a meeting to be held on Tuesday evening, May 27, at 7:30 o'clock in the granite manufacturers' rooms, to listen to J. F. Hall, superintendent for Vermont of the New England Telephone & Telegraph company, who will explain the application of the new rates and discuss with the members the telephone situation.

The members of the Montpelier Board of Trade, the Barre Merchants' association and members of the above associations are invited to be present.

The game for which the Montpelier seminary team remained over an extra day at Franklin, N. H., purposely to meet the high school of that city could not be played Wednesday owing to heavy rain. Fans of Montpelier and Barre regret considerably that terms cannot be made whereby Montpelier seminary and Goddard could contest for the championship of the four teams in the twin cities. Apparently they are well matched and those well informed in baseball predict that some good baseball would surely result from a contest of these nines. At present supporters of both school nines are confident that their team consists of superior players, and which, of course, everyone must listen to until the only decision possible, a game, settles all doubts concerning the matter.

Quite unexpectedly three young men sitting on the window sill of the Smith & Cumings show window were showered with broken glass when one of the trio leaned back against the window and the window broke. Only the frame and one small piece of glass was left. Three days ago two insurance inspectors condemned the window which had been pierced in two different places, once in the center and again at the lower left hand corner, leaving only a very small hole around which the glass was cracked very slightly. How or what made the two holes in the glass could not be ascertained though the places bore the appearance of bullet holes. One was made last fall. The window was boarded up last evening and will soon be replaced by new glass already on its way to Barre.

Don't lose sleep because of an itching skin Resinol will make it well

How can you expect to sleep tonight unless you do something to relieve the trouble? Eczema and other itching skin troubles don't often heal themselves. But it is surprising how quickly Resinol does heal them.

Almost daily we hear from a skin-sufferer who says, "Resinol Ointment stopped my itching at once and I got the first good night's sleep I had had in weeks. Now my skin is well." At all druggists.

Roof Facts

The difference in efficiency between the steam engine and the stage coach is no greater than that between the very best Roof and the ordinary so-called "Rubber" Roof. It is so easy to accept looks, or toughness, or some other non-essential, that the all-important factor, slowness-to-dry-out, is often given not even a thought.

Of course, slowness-to-dry-out is not an apparent quality. You can't see it. Neither can you learn by any kind, manner or degree of test or analysis whether a Roofing will dry quickly or slowly. Only the test of actual use will tell.

Many people test Roofing by bending or tearing it. Such tests are misleading. Toughness is no proof of good Roofing. In fact, it is usually a sign of insufficient saturation. On the other hand, don't conclude that much saturation is certain proof—it may be nothing but quick-drying oil.

The sure safe plan is to buy well known and responsibly guaranteed Roofing.

Certain-teed Roofing is used in every civilized country and is known by everyone. It is made by the largest manufacturers of Roofing in the world, and they guarantee it in writing—1-ply 5 years, 2-ply 10 years, 3-ply 15 years. The price is less than for other high-grade coverings. Let us quote you.
